**REASON FOR BECOMING A CHRISTIAN
SCIENCE PRACTITIONER:**

I became a practitioner because I love sharing Christian Science and want to help make this most potent healing method more widely available. You can never tell where a call is going to come from. Every moment is new and fresh. It's the most inspiring and uplifting thing I've ever done.

Men and women of all ages, from all walks of life, in every corner of the world, are becoming Christian Science practitioners. As unique as they all are, these people have one essential thing in common: the desire to heal others by applying the principles of Christian Science.

Your decision to enter the practice may also be a blessing to a branch church in need of a Christian Science practitioner (see Church Manual, Article XXIII, Sect. 7).
